

www.exitoptions.org provides information about end of life options, and it is also hosting an anonymous poll. The poll contains eight, straight-forward, easy, multiple-choice questions and areas to input your approximate age and your state's two-letter postal abbreviation. The first four multiple-choice questions allow you to record how you would choose to deal with hypothetical end of life situations involving yourself or loved ones by providing five different choices. This anonymous poll is a way for you to let policy makers know what end of life options you would like to have available to you if you or your loved ones were suffering, and there was no chance of being cured. Also, please recruit help in getting your message to legislators by sending all your friends to www.exitoptions.net to learn and to participate in the poll. www.exitoptions.org/ to learn and to participate in the poll. Exit Options, Inc. was founded by experienced physicians, a chaplain, and concerned members of the general public whose families had experienced losses of loved ones. Exit Options, Inc. is a 501(c)(4) nonprofit corporation whose purpose is to provide information about the end of life options already available and ways to increase the number of options available to individuals planning ahead to optimize their enjoyment of the life they live but making sure that they have taken the steps necessary to make their death as painless and peaceful as possible once it has become inevitable. You may paste the content of this file into your email to friends or send this pdf to them as an attachment.

Sincerely,

Exit Options, Inc.
